

Fabric Care

Your fabric has a cleaning code that will guide you on proper care. If you cannot locate the cleaning code on the labeling, please refer to our website or email us at sales@newclassicfurniture.com

Code “W”

Code “W” is used on fabrics that should be cleaned with water based cleaning agents. Spot clean using foam from only water based cleaners, or non-solvent cleaning products. Apply foam with a soft brush in a circular motion, and vacuum when dry.

Code “S”

On fabrics with an “S” code, use a mild water-free cleaning solvent or dry cleaning product. Make sure the room is well ventilated when using.

Code “W-S”

Code “W-S” fabrics can be cleaned with either water or solvent based products. Use a mild solvent, an upholstery shampoo, or the foam from a mild detergent.

Code “X”

Clean this fabric by vacuuming or gently brushing only. NEVER use any cleaning agents at all. Any cleaning product whether water or solvent based may cause staining, shrinkage or distortion of the fabric surface pile.

General Guidelines

- Regularly clean your fabric by vacuuming or light brushing.
- Test cleaning product in an inconspicuous area first to guard against color bleeding or fabric shrinkage.
- Call a professional when your upholstery needs overall cleaning.
